Professionals in the Industry

VATSAL SONI

has successfully completed the online Specialization

SQL for Data Analysis and Business Insights

Earned the SQL for Data Analysis & Business Insights Certificate by completing 10 courses from beginner to advanced levels. Demonstrated proficiency in SQL fundamentals, complex joins, aggregation functions, subqueries, CTEs, and window functions. Developed expertise in data cleaning, schema design, query optimization, and performance tuning. Mastered database tools including SQLiteStudio, MySQL Workbench, & Jupyter notebooks while implementing Git version control. Completed multiple business projects including Northwind sales analysis, TechMart retail analytics, & Mint Classics inventory optimization. Applied advanced techniques including stored procedures, triggers, & recursive queries. Prepared to work as a data analyst with SQL toolkit for extracting insights & solving complex problems

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
